PROFESSIONAL SUMMARY

SAP Software Engineer with 5+ years of experience in S/4HANA Public Cloud development. Specialized in ABAP RAP, Fiori Elements V4, and cloud architecture on BTP to deliver scalable, high-performance SAP applications in Agile environments. Experienced in building scalable planning tools handling high-volume transactional and multi-level production data.

EDUCATION

SRH Heidelberg - M.Sc. in Applied Computer Science

April 2019 - March 2021

- Master's Thesis on Leveraging Voice Assistive Technology to Enhance Health Monitoring of Older Adults. Published research at the International Conference on Intelligent Human Computer Interaction (IHCI 2021).

WORK EXPERIENCE

Software Developer and Infrastructure expert, SAP

Jan 2023 - Present

- Architected and led the end-to-end development of cloud-native SAP Fiori applications in S/4HANA Public Cloud (PP/MRP) using ABAP RAP and Fiori Elements V4.
- Ensure compliance with SAP cloud quality standards, automated testing frameworks, and release governance processes.
- Mentored junior developers on Clean ABAP/Fiori practices and acting as a local UI expert to maintain high code quality and team efficiency.

Associate Developer, SAP

May 2021 - December 2022

- Executed development tasks for SAP cloud applications, ensuring strict adherence to automated testing frameworks and release governance.
- Actively participate in Sprint Planning, Daily Stand-ups, Backlog Refinement, and Sprint Reviews, ensuring timely and high-quality feature delivery.

PROJECTS

Review Order Progress (F7681)

- Led end-to-end development and infrastructure ownership of a cloud-native application in SAP S/4HANA Public Cloud (PP module). Architected and implemented a hierarchical tree-table structure using Fiori Elements V4 and ABAP RAP.

Manage Material Coverage v2 (F0251A)

- Developed an SAP Fiori Elements MRP app that streamlines shortage identification and corrective actions, replacing multiple legacy transactions to accelerate production planning responsiveness.

Monitor Material Coverage – Net Segments (F0247A)

- Developed this monitoring tool by integrating net and individual segment requirements with configurable filters, enabling planners to pinpoint and resolve segment-specific shortages with greater granular accuracy.

TECHNICAL SKILLS

Web & Frontend	SAP Fiori, TypeScript, UI5, CAP, AI Tools (Claude, CLINE, Co-Pilot)
Backend & Database	Node.js, ABAP RAP, SAP BTP, OData V2/V4, MongoDB
Infrastructure	Azure, Docker, Transport Management (gCTS), Git, CI/CD Pipelines
Language	English, German (B2 - Professional Working Proficiency)
